SOFT SKILLS

Continuous learning I consistently adopt new technologies as project needs evolve and apply them quickly.	Communication and collaboration I align requirements, coordinate with the team, and communicate progress clearly.
Ownership I demonstrate proactivity and autonomy, assuming responsibility for tasks from definition to delivery and validation.	Resilience I stay focused and adjust plans when requirements change or blockers appear.
Requirements gathering I identify needs, constraints, and priorities with users and stakeholders.	Problem solving I diagnose root causes, propose options, and deliver measurable solutions.
